

Mission

The mission of the Dunedin Community Garden is to enhance the quality of life and strengthen community bonds by creating and sustaining an organic garden that will foster environmental stewardship, horticultural education, and improved health.

Purpose

- Offer organic garden space to the people of Dunedin that share a common interest in gardening
- Become an educational resource for students, schools, and our community
- Build community through gardening
- Expand and improve Dunedin's green spaces
- Be an inspiration for a healthier community friendly to humans and wildlife.

Member Information

Gardeners at the DCG will be:

- Required to follow organic gardening principles and will not be allowed to use any pesticides or herbicides.
- Encouraged to donate excess produce to the local food bank or their neighbors.

Garden plots will be rented out each year for a fee plus a commitment to contribute volunteer hours to overall garden improvement. Come join us.

Membership Levels

Garden Member

\$25/year & a \$25, one-time, refundable deposit

Supporting Member

\$25 Minimum

What We Do

Many of us wish we could grow our own vegetables but may not have a place to grow or the know-how. The Dunedin Community Garden (DCG) is devoted to providing a place where individuals and families can successfully grow fresh, healthy produce and to socialize with other gardeners. The garden is run by a group of dedicated community members that love to garden.

Activities:

- Thirty-four, 4' x 8' wooden raised beds
- Eight ADA plots with sidewalk access for community members with disabilities.
- Expert gardening advice through a variety of workshops and seminars.
- Members will be able to borrow tools/wheel barrows if they do not have their own.
