PUBLIC NOTICE

RE: FY08/09 Micro Surfacing Project

Dear Resident:

This notice is to advise you that your street is going to be resurfaced. The Contractor for this project is Florida Highway Products of Celebration, Florida. The contractor has already started concrete curb and sidewalk repairs in advance of the resurfacing. The contractor has also been filling major cracks and has cleaned the pavement edges in preparation of resurfacing.

Every effort will be made by our Contractor to control inconvenience to residents. Access may be restricted to your property for several hours during the resurfacing operation and you may wish to park your car elsewhere this day. Your street should be resurfaced within 48 hours of this notice, weather permitting. We hope this gives you ample time to make any adjustments to your schedule. Emergency vehicles will have access at all times during the project.

The roadway work takes approximately one hour to cure and should not be driven on while still wet. After the work is completed, we request that you drive slowly on the new roadway for the next few days. Please do not make sharp turns exiting your driveway for the next several weeks for this could damage the new roadway surface. Please avoid sharp twisting and turning when backing out of your driveway as it may cause permanent damage to the surface and should be avoided. This is especially true when the ambient temperature reaches 85 degrees and above.

Please obey traffic control workers. Safety is of the utmost importance for residents as well as the contractor. Please do not turn on your sprinklers or empty your swimming pool on the day of treatment, which could result in water running onto the street and delaying the work. Your corporation and patience is appreciated during the construction process. We intend to provide your street with a new roadway surface while causing only minor inconveniences to you and your neighbors. Should you have any questions or comments, please feel free to contact me at (727) 298-3180 or e-mail at jcooper@dunedinfl.net. For emergency or construction related problems, please call Mark Torrance, Engineering Inspector at (727) 424-3812 or email at mtorrance@dunedinfl.net.

Sincerely,

Jay Cooper
Engineering Section
