Re: Flood Event Preparation

Dear Floodplain Stakeholder:

The 2014 Hurricane Season is just starting. As you know the City of Dunedin is very concerned with the potential damage that can be caused by flood events. We are pleased to take an active role in National Flood Insurance Program. Should any of your clients be interested in properties in the flood plain area, we are providing a hazard disclosure / flood insurance information sheet in an effort to promote reductions in property losses due to flooding. We would hope that you will distribute these forms to your clients.

If we can be of further assistance or should you have any questions regarding this information, please feel free to call us at 298-3198.

Sincerely,

Greg
