THE WILD SIDE OF DUNEDIN

A Photographic Pursuit by Mikell Herrick

Whether you click with a cell phone or have a DSLR camera you are bound to learn how to be a better photographer with the help of the Friends of the Hammock speaker, Mikell Herrick. Her resume as a writer and journalist has been enhanced to include nature photographer. Her artistic eye has captured stunning wildlife photographs throughout the Dunedin and Suncoast area. She will offer tips on how you can improve your skills and produce better nature and wildlife images. Learn her secrets of where and how to photograph birds in action and a bit about how she edits photos for better end-results.

Birds, butterflies, insects, landscapes and sunsets are some of her favorite subjects and her presentation will include many that she has taken in the Hammock, as well as her series of an Audubon Bird Banding event in the park. You can preview her vast collection at www.mikellherrick.com

Refreshments will be served at this interactive event.
